Objective

As a highly motivated web developer, I am seeking a challenging opportunity to develop beautiful and fully functional web applications with cutting edge technologies where my passion, advanced skills, education, extensive training, and experience can be fully utilized.

Key Skills

Web Techniques

- Microsoft remote desktop
- FTP
- Terminal usage
- Github
- RESTful web services
- AJAX and JSON

Client-Side Development

- Sketch
- HTML5 and CSS3
- JavaScript
- jQuery
- ES6
- SASS
- Bootstrap
- Responsive design
- Gulp
- Webpack
- React.js
- Redux

Server-Side Development

- Python
- C#
- ASP.NET
- IIS
- RESTful API services
- SQL Server
- PostgreSQL
- Authorization and authentication

iOS Development

- Swift
- Objective-C
- CoreData
- Firebase
- Storyboard
- Programmatic UI Design

Professional Experience

Kivista   Ottawa, ON

Software Developer / Teaching Assistant   Oct 2016 - Present

- Responsible for the design, layout, and coding of dynamic and interactive web applications using ASP.NET, Bootstrap, and jQuery.
- Maintain and improve product quality by carrying out reviews, analyzing feedback, and adopting new technologies.
- Worked independently to develop a complex and secure web-based curriculum and training delivery management system that requires many different levels of user accesses.
- Created web development teaching materials for post-secondary program, including online video lectures, powerpoint slides, and assignments.

Algonquin College, school of advanced technology   Ottawa, ON

Web Developer   Aug 2016 - Oct 2016

- Effectively developed a new student project gallery portal, a web-based customer data-entry applications, using ASP.NET.
- Designed responsive mobile-friendly user interface (UI) using Bootstrap and SASS to meet the client requirements.

- Demonstrated project management and organization skills from utilizing an effective workflow from back-end to front-end development.

Academic Project Experience

Geographic Information Systems (GIS) Graduate Certificate Program   Ottawa, ON
GIS Student   Jan 2016 – Aug 2016
- Responsible for developing a story map web application and development strategy for Canada 150th anniversary using jQuery, JSON data, and ArcGIS Online.
- Developed geocoding strategy for the Canada Science and Technology Museum collection through active team work.
- Further improved front-end web development and database designing skills through developing web-based story maps and designing the museum database prototype.

Other Work Experience

Global Education & Technology   Inner Mongolia, China
Teaching Assistant   Jun 2014 – Sept 2014
- Responsible for delivering learning skills to students for improving their English reading, writing, listening, and speaking abilities for International English Language Testing System (IELTS).
- Demonstrated second language learning skills and training delivery skills from developing English learning strategies for students.

Education

Geographic Information Systems, College Graduate Certificate   Sept 2015 – Oct 2016
Algonquin College, Ottawa, Ontario, Canada
- Dean's Honours List
- GPA 3.83 / 4.0

Geomatics, Bachelor of Science   Sept 2010 – July 2014
Inner Mongolia Normal University, Hohhot, Inner Mongolia, China
- Average Grade: 85.67%

Online Training

Certificates of Completion, Lynda.com   Jun 2016 – Present
- The Complete ASP.NET MVC 5 Course
- LINQ with C# Essential Training
- C# Object-Oriented Programming Tips and Tricks
- Sass Essential Training
- jQuery Essential Training
- JavaScript and AJAX
- Up and Running with ECMAScript 6
- React.js Essential Training
- Learning Redux
- Bootstrap Essential Training
- Learn Webpack: The Basics
- Web Project Workflows with Gulp.js, Git, and Browserify
- Learning Git and GitHub
- Learning iOS 10 App Development
- iOS 10 & Swift 3: From Beginner to Paid Professional
- Sketch for UX Design
- Sketch: Mobile Design Workflows
